

Краткая инструкция по отправке работ на рецензию в github

Форкаем репозиторий

Указываем любое название, в качестве owner'а выбираем себя

Create a new fork

A *fork* is a copy of a repository. Forking a repository allows you to freely experiment with changes without affecting the original project. [View existing forks.](#)

Required fields are marked with an asterisk (*).

Owner *

Choose an owner /

Repository name *

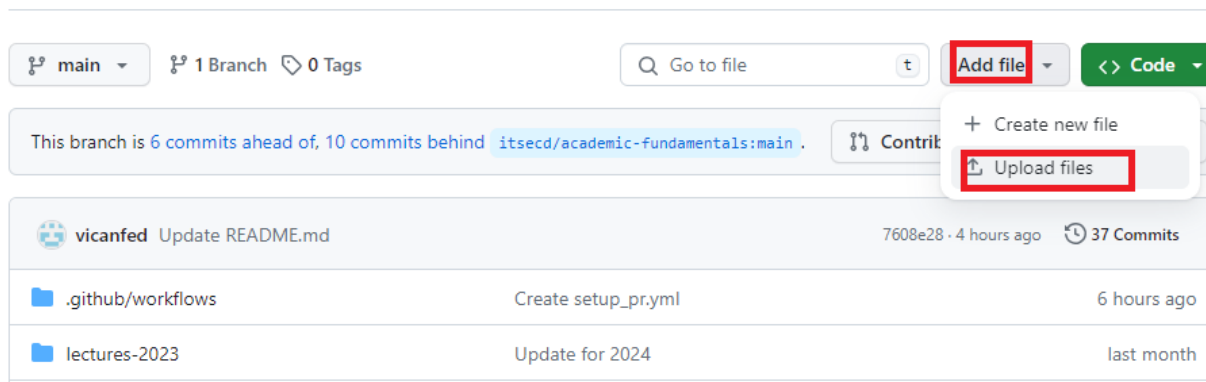

By default, forks are named the same as their upstream repository. You can customize the name to distinguish it further.

Description (optional)

☒ Copy the **main** branch only

Contribute back to itsecd/academic-fundamentals by adding your own branch. [Learn more.](#)

Добавляем файлы.

В открывшемся окне выбираем файлы и коммитим изменения.

temp1 /

Drag additional files here to add them to your repository

Or [choose your files](#)

print-protection4_notes.docx

Commit changes

Add files via upload

Add an optional extended description...

☒ Commit directly to the `main` branch.

☐ Create a new branch for this commit and start a pull request. [Learn more about pull requests.](#)

Commit changes

Cancel

Переходим по ссылке Pull requests и нажимаем кнопку New pull request

Welcome to pull requests!

Pull requests help you collaborate on code with other people. As pull requests are created, they'll appear here in a searchable and filterable list. To get started, you should [create a pull request](#).

В открывшемся окне смотрим изменения и нажимаем кнопку New pull request.

Указываем правильно (согласно информации в README.md) название. При необходимости добавляем описание и нажимаем кнопку Create pull request

Add a title

aswad

Add a description
